BSc Computer Science — 2025 – 2028

Bou Ali High School, Tehran, Iran
Math Physics Major — Graduated: 2020
GPA: 18.08 / 20

Work Experience

Content Creator — Self-Employed — Instagram, YouTube — 2020–Present

With over 5 years of experience in content creation on YouTube and Instagram, I've grown a combined following of over 300,000 and built a strong personal brand by documenting my life journey since high school. My content has received over 30 million views on YouTube alone. I've scripted, recorded, and edited more than 400 long-form videos and over 200 short-form videos across platforms. My Instagram boasts an impressive 6% engagement rate, reflecting the genuine connection I've built with my audience. I'm passionate about talking to people, building meaningful relationships, and making others smile—connecting with people is where I truly thrive. I also love learning and trying new things, always seeking fresh perspectives and creative challenges to grow personally and professionally.

- Managed all stages of content production (planning, scripting, filming, editing)
- Partnered with 50+ brands, handling negotiations, timelines, and deliverables
- Coordinated campaigns with cross-functional teams and tracked performance
- Created launch content for new products, including unboxings and influencer boxes
- Built and maintained a loyal community with a 6% IG engagement rate

Projects

Personal Portfolio Website — GitHub Pages
github.com/mia/portfolio

- Designed and deployed a personal portfolio to showcase projects and skills
- Fully responsive layout, hosted using GitHub Pages
